# Naya TALLY Interface to Blackmagic

1. Please connect Tally interface to Blackmagic switcher(we call it BMD) as below:

2. BMD switcher has default IP 192.168.10.240.

3. Turn on TALLY Interface、base station、TALLY and BMD switcher

4. Tally flash when switcher works.

Remarks: if BMD switcher IP has been changed, you have 2 solutions:
(1) Reset to default IP of BMD switcher
(2) Configure IP parameters of Tally interface with the help of Tally interface configuration software.
